

Push to Talk

IEARC Reorganizes

On the agenda in 2012 is the reorganization of the Inland Empire amateur Radio Club.

A committee will be formed to make recommendations for the new club. Subjects such as Finance, activities, programs, social and operating events, and training and workshop events.

You'll probably see a new membership committee and a new way of accepting members into the club.

With the new leadership taking office in

December, this reorganization should complete shortly after the first of the year.

Once the committee has finished its work, it will be up to you to determine which recommendations you want to implement.

This will be your opportunity to determine the direction you want this club to take.

We'll either continue to go in the direction we're going now or we can determine a new and exciting direction with plenty of activities for

you to participate.

Finally, if you want to be on the Reorganization Committee to help determine the new direction of this club, stick your hand up in the meeting, send an email to the new president, make a phone call but let someone know you want to be part of the committee.

If you don't participate, you may get a club you're not happy with. Sitting on the sideline is the status quo for this club so get involved and be part of the change.

JOTA Summary

A beautiful at the LDS Church in San Bernardino.

Several members were there to help. They were Dave KI6OSS and Sheri KI6WWN, Howard KB6UGS, Chuck AI6I, Aaron WH7VU, Don KJ6KQE and Dave WA6DF.

We setup in the covered entrance to the church.

About fifteen Scouts were in attendance and some of the boys made some contacts on the air. They talked to Tennessee, Mississippi and a guy in Georgia. About 10:00, the Scouts went into a

class to qualify for their Radio Patch.

We tested two and one became an Extra class ham.

We shut down about 4:00 pm.

The gang at Crab Flats Campground.

Last race of the season

Three of our members, Chuck Sweeten, AI6I Howard Kagebine KB6UG and Dave DeGroff WA6DF working with the First Air team in the last race of the season held in Ontario.

Riders ages 12 to 65+ years put their best into these races.

Chuck AI6I, Howard KB6UGS and Dave WA6DF represented the club at this event. It was a hoot.

If you haven't been to one of these, put this on you calendar for next year.

Inland Empire Amateur Radio Club

Our Mission

To promote the growth of Amateur Radio in the western end of San Bernardino County including the surrounding communities,

To offer the general public a source of instruction that will lead to obtaining and/or upgrading an Amateur Radio license.

To train and maintain an organized team of radio operators for emergency and civic use.

To work in close conjunction with all emergency services organizations and to make available the talents and equipment of our Members to these organizations, as well as to other agencies and contiguous communities engaged in public service.

To make the CLUB available to the communities for special events and activities whenever they may be required.

Letters to the Editor

This newsletter —

Hey guys, this is your newsletter, not just mine. This section is the “Letters to the Editor” where you can say anything you want (unedited) about what’s going on with the club, in amateur radio, in the FCC, in ARRL, in government or in the world.

Your opinions in this newsletter are communicated to the officers and directors of the club, to all members and to others who receive this newsletter.

I know that all of you have things you’d like to know. I have no doubt you have things you want to say but just don’t want to raise them in a meeting. This is the place to get that stuff off your chest.

If there’s something you’d like to see in this letter or on the website, send me a link to that information and we’ll see what we can do.

This is your newsletter! Use it!

Dave DeGrof fWA6DF
Newsletter Editor.

Participation

Our outings lately have been some distance from Ontario and some of our members have difficulty getting to these events.

Perhaps we should alternate our outings between local and our of town venues. There are some parks in the area that would be suitable for an outing.

In the reorganizations, we should look at a committee to help balance our outing schedule. Perhaps more members would attend.
